Subject: Dear Attorney General Ashcroft, please have the department back away from

Dear Attorney General Ashcroft, please have the department back away from the Microsoft case. The first go-round of the case against them began the downward spiral of our economy in March of 2000 - this will not enhance our prospects for recovery. The case is needless and flies in the face of free enterprise!

Please take care of yourself and get some well-needed - earned rest, you have bigger fish to fry in regards to ensuring our nation's safety. I know you inherited a lot of this from you-know-who's administration, but let's keep on with the truly important things, preservation of life and security issues.

I am so proud to know you and to have supported you and Janet in your campaigns for office. I hope your family is all doing well and that Jimmy is getting more delightful with each passing day. I missed your Christmas card this year with an update, too!

Warmest regards,

Lana R. Taylor
